To Construct or Fill in a Flood Plain**

Date: _____

Permit #: _____

Owner Name: _____ Signature: _____

Address: _____

Parcel ID No.: _____ Location: _____

Phone: (_____) _____ Mobile/Beeper: (_____) _____

Attach all items outlined on the checklist below:

Duplicate plans drawn to scale showing the following information:

- Nature, location, dimensions and elevations of the area or site
- Location of floodway
- Existing and/or proposed structures
- Cuts and/or fills
- Storage of materials
- Drainage facilities
- Bench marks
- Location of all of the above
- Location of "Special Flood Hazard" as defined in Ordinance 44

The following items are specifically required to be shown on the plans:

- Elevation in relation to mean sea level of the lowest floor, including the basement
- All structures
- Elevation to which any structure has been flood proofed
- Certification by a registered Professional Engineer or Architect that the flood proofing methods for any non-residential structure meet the flood proofing criteria (section 5.2-2)
- Description of the extent to which any watercourse will be altered or relocated as a result of the proposed development
- All information under this section shall be prepared and certified under the seal of a Registered Professional Engineer or Surveyor.

Certification with back-up report by a registered Professional Engineer that the proposed fill or construction will not significantly change the flood plain elevation or the flood plain area.

Certification by a Registered Professional Engineer or Surveyor that the plans are in conformance with Ordinance 44.
